

who saved his Urine in bottles because...

He was making and ingesting the Philosophers Stone... from his Prime Materia, also known as Philosophical Dew or Goldenwater.

Alchemists speak alot in symbol and allegory to hide their meaning from the profane, but I dont really consider myself an Alchemist so I have no problem with speaking plainly.

The Stone is like a Mineral, a Crystal.

Its known for its ability to grant man with greater intelligence, health, and thus longer life. As well as opening the door to the Spirit World.

Its the Great Work of the Alchemist to make the Stone and partake in its power. Thus changing a lowly lead man to a higher golden man. This is the creation of the Divine Body within your Self. Immortality.

It is also said that the stone can transmute lower metals into Gold. This is what alchemy is most known for.

The "Stone" is a crystal that is present in many living things. Some plants have the stone in it, Ayahuasca is one. The stone is found in living materia like human blood or urine. The Stone is inside you because its created in the pineal gland and then some is excreted in your urine.

Some of you may have guessed it is DMT, Dimethyltryptamine.

Through the many alchemical processes to make the stone "Solve et coagula", basically its purified and the crystals coagulate out of the matter and they are Collected.

Some of you know Howard Hughes because you seen the movie Aviator where it showed him locked up in a theater watching movies on a continual loop in the dark with glass jars of his own Urine stacked up.

People say his reclusive actions were that of a deranged person with OCD.

But I say that he was doing Alchemical work - The Great Work.

He was saving the urine for months at a time to Putrefy it and and remove the precipitate before heating and cooling the Matter to get the Crystals. The "Stone"

Again his reclusive actions were for a reason.

He needed the Dark Space of "The Cave" to do his work. The darkness helps to create melatonin which is converted into two kinds of DMT in your body. The Silver and the Gold. Sun and the Moon.

Along with the prolonged darkness to help produce melatonin in his brain he was eating a specific diet of Chocolate and Milk. The body can get many Tryptophans from these types of food.

And Tryptophans are turned into Serotonin which makes melatonin and then eventually DMT in your Body which you then urinate out and Collect to do your alchemical work. To make more "Stone".

Howard was ingesting the stone for its beneficial qualities and communing with the Spirit Realm. The Astral Plane.

Re: I believe Howard Hughes was an Alchemist who saved his Urine in bottles because...

Why go through all that when there are easier ways to obtain dmt?

Yes there are many paths.

Some harder to complete then others.

You could start with a Prime Materia (main
ingredient) of Morning Dew and Sea Salts
instead of your own Dew.

It is pretty Gross.

Here is some research source material:

Johan Isaac HOLLANDUS

Opuscula Alchimica

I. To Make An Elixir From Urine

"Our stone has a strong smell and bitter taste,
like urine , and it is found everywhere in
superfluous quantity. All animals also have it,
though not as perfectly as man. Without our
Stone nothing in this world can live. I am
telling you enough, if will only understand;
and if you do not understand, God Almighty
will not grant it to you; and even if you do ont
find it, it is nevertheless found."

"Take our Stone in its coarseness such as it
comes out of the minera of man. Understand
well what I am saying! Put it into a wide,
glass vessel and add the powdered gold
leaves. Pour on this some of our Stone, which
must be old and well settled and purified.

Pour of the Stone, two fingers; width over the
gold. Set the vessel with gold and the Stone of
summer into the heat of the sun. A white-
golden skin or oil will form on top. Remove it
carefully with a feather, in such a way that
you move the matter as little as possible. Put
it ninto a glass. Proceed in this way several
times a day, removing the oil till no more oil
forms on top. Thus you can obtain oleum
solis with our Stone in its coarseness, as it

comes out of a man's minera ."

Easiest way to get DMT is to mix scamp skin
with blood grass and fire salts but be careful
not to use nightshade cause it will make you
spontaneously combust. (lol, elder scrolls
joke)

Once the Richest Man in America.

Howard lived longer then any other man with
Chronic Pain.

This is a testament in itself to the Stone.
